

langton.plateau.Plateau.random

langton.plateau.Plateau.reset

langton.plateau.Plateau.set  
\_color\_case

```
graph LR; A[langton.plateau.Plateau.random] --> C[langton.plateau.Plateau.set_color_case]; B[langton.plateau.Plateau.reset] --> C;
```

The diagram illustrates a relationship between three methods of the `langton.plateau.Plateau` class. On the left, two white rectangular boxes with black borders contain the text `langton.plateau.Plateau.random` and `langton.plateau.Plateau.reset`. On the right, a gray rectangular box with a black border contains the text `langton.plateau.Plateau.set_color_case`. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both `random` and `reset` methods are associated with or lead to the `set_color_case` method.
